Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #37938

TransPop, United States, 2016-2018

DS #5: Combination Data for Public-Use

1. **Confidentiality/Disclosure Risk:** In order to protect respondent anonymity and prevent disclosure risk, ICPSR spot-masked the following variables in the data: **Q21**, **Q31**, **Q63_T_VERB**, **Q83_T_VERB**, **Q86_VERB**, and **Q202_VERB**. The following geographic variables were masked: **GMSANAME**, **GZIPCODE**, and **GZIPSTATE**. The open-ended numeric age variables, **AGE** and **Q195**, were top-coded at 72 and 1946 – respectively.
2. **Variable Discrepancies:**
 - a. In the P.I. Codebook for TransPop Data, the variables **Q21_VERB** and **Q86_VERB** are named **Q21** and **Q86** – respectively. In the P.I. Codebook for Cisgender Data, the variable **Q50_VERB** is named **Q50**.
 - b. The variable **GD7** does not appear in the P.I. Codebook for TransPop Data, no additional information was provided.
3. **Variable Recodes:** The variables **Q205**, **Q205_I**, and **Q38** were top-coded to match the P.I.'s value labels.
4. **Qualitative Data File:** The variables **Q21**, **Q34_VERB**, **Q81_T_VERB**, **Q83_T_VERB**, **Q86_VERB**, and **Q202_VERB** were exported to a comma delimited (CSV) file which is available for download and can be linked to the dataset via the **STUDYID** variable.
5. **Additional Information:** For additional information on the TransPop Study, please visit the [TransPop website](#).

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

The next section is about experiences that may have happened to you over your lifetime. The first questions are about your gender identity disclosure.

Below are some questions about events that happened during your childhood. This is a sensitive topic and some people may feel uncomfortable with these questions. Remember, on the cover letter of this survey, you will find a list of organizations that can provide information and referral for these issues. Also, please keep in mind that you can skip any question you do not want to answer. All questions refer to the time period before you were 18 years of age.

As a reminder, all questions refer to the time period before you were 18 years of age.

CIS_Q143_1: In each group below, do you know anyone who is transgender? Please mark all that apply... Immediate family you grew up with (mother, father, sisters, brothers, etc.)

Some people describe themselves as transgender when they experience a different gender identity from their sex at birth. For example, a person born into a male body, but who feels female or lives as a woman would be transgender. Some transgender people change their physical appearance so that it matches their internal gender identity. Some transgender people take hormones and some have surgery. A transgender person may be of any sexual orientation - straight, gay, lesbian, or bisexual.
